

MQA-13: FLIGHT COMMANDER COURSE

PREREQUISITES: MQA-4

REQUIRED READING: None

PURPOSE: Fulfill requirements of ACC SII 00-02

This lesson is self-paced. The course software is at the following web site:

- https://wwwmil.acc.af.mil/trss/flt_cc_sup_cis/flt_cc_sup.htm.

If you been a flight commander prior to your current assignment with the 3rd ASOG, you are still required to accomplish lesson 12 of this web-based course, Operational Risk Management (ORM). If you have never been a flight commander before, you are required to complete the entire course.

For best results accessing this and the rest of the course, copy the above URL and paste in the address space of your Internet browser and press enter. On your first visit, a box will appear with information on the site's security certificate. At the bottom of the box you are asked if you want to proceed. Answer 'Yes' and the course will appear. Please read the instructions carefully before you begin.

Please note that there are power point files and lesson plan files. Each lesson plan has a corresponding power point presentation. However, a power point slide show and MS Word lesson plan cannot be viewed simultaneously. Whether you choose to view the slide show first, then read the lesson plan, or vice versa, it is entirely up to you. The important thing is that you glean as much information out of this course as possible and put it to work as soon as you can. Remember, your subordinates, in particular the 1C4s and TACCS who are the heart of the Air Force TACP, do the real work that it takes to employ CAS successfully. Good luck, have fun, and take advantage of every chance you have to improve your leadership skills.
